Banyan Hill Publishing Masterfile is focused on U.S. based investment opportunities such as commodities, nature resources, small- and mid-cap stocks, income-producing investments, option plays and deeply undervalued domestic companies. It's a network of global experts in asset protection, investing and entrepreneurship who unite together to help hardworking Americans obtain freedom of "total wealth".

Below are the services that make up this Masterfile and help Americans make their own investment decisions, grow their wealth with less risk and be free from financial concerns:

Strategic Fortunes (IKA) *Ian King* is an expert at uncovering tipping-point trends before they are set to take off and make investors life-changing money. Like 735% on Tesla in one year and 780% on SunPower in seven months — real gains followers of *Strategic Fortunes* had the chance to make by following Ian's recommendations. This is comprised of any experience level investors with an interest in making money from new technologies like EVs, 5G, blockchain, etc.

Alpha Investor (CMZ) *Charles Mizrahi* was named the #1 investor on Wall Street by *Barron's* before he walked away to help Main Street Americans. In *Alpha Investor*, he recommends investing in companies with strong financials, powerhouse CEOs, in growing industries, with the potential to grow money year after year.

Green Zone Fortunes (SFT) *Adam O'Dell* is among the top investment analysts in the world. He left the grind of running a multimillion hedge fund to identify top profit opportunities for main street Americans. In *Green Zone Fortunes*, Adam and his team look for trends in the market that no one else sees and uses the powerful Stock Power Ratings system to find strong investments with the potential to grow your portfolio year after year.
